TDK's total EMC solution supports the EMC measures of our customers in all stages of planning, design, prototyping and commercialization, through the provision of optimal EMC components, integration of advanced simulation technologies into design, and EMC measurement services using anechoic chambers.

### **Guidebook for EMC | EMC Components | TDK Product Center**

Electronic devices generate electromagnetic interferences, which can affect the proper functioning of electronic devices and systems. As the need to ensure EMC (electromagnetic compatibility) continues to grow in importance, TDK has developed a wide range of products designed to protect electrical and electronic equipment against EMI (electromagnetic interference).

We set the standards for the electronic components industry, enabling and protecting smart systems from the start. In a fast-paced world where people and systems are perpetually communicating, connected to multiple environments and systems, electromagnetic interference is an ever-present possibility.
