A braid (also referred to as a plait) is a complex structure or pattern formed by interlacing three or more strands of flexible material such as textile yarns, wire, or hair. Compared with the process of weaving, which usually involves two separate, perpendicular groups of strands (warp and weft), a braid is usually long and narrow, with each component strand functionally equivalent in ...

Cornrows or braids, also called canerows in the Caribbean, are an ancient traditional African style of hair grooming, in which the hair is braided very close to the scalp, using an underhand, upward motion to produce a continuous, raised row. Cornrows are often formed in simple, straight lines, as the name implies, but they can also be formed in complicated geometric or curvilinear designs.
