Vitae Consulting | Psychometric Profiling | Leadership

These tests can be used to measure a person's ability or knowledge level in a certain field, but are most commonly used to "get a feel for" a candidate's general level of intelligence and ability.

Psychometric Test Types - Career Gym

The norming and interpretation of psychometric tests and psychological assessments is an important part of test standardisation

How to Interpret Psychometric Assessments with Norms

A personality test is a method of assessing human personality constructs. Most personality assessment instruments (despite being loosely referred to as "personality tests") are in fact introspective (i.e., subjective) self-report questionnaire (Q-data) measures or reports from life records (L-data) such as rating scales. Attempts to construct actual performance tests of personality have been ...
