Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

Singular they is the use in English of the pronoun they or its inflected or derivative forms, them, their, theirs, and themselves (or herself), as an epicene (gender-neutral) singular pronoun. It typically occurs with an antecedent of indeterminate gender, as in sentences such as: "Somebody left their umbrella in the office. Would they please collect it?" "The patient should be told at the ...
