Your Guide to Diabetes - National Institute of Diabetes

Your Guide to Diabetes . Diabetes affects roughly two and a half million Canadians. Left untreated, diabetes can lead to many serious complications, including: heart disease, kidney disease, vision loss, and lower limb amputation. The Public Health Agency of Canada (PHAC) estimates that 5 million Canadians over the age of 20 are currently pre-diabetic. An additional 1 million new cases of pre-diabetes are expected by 2016.
