Zoning is the process of dividing land in a municipality into zones (e.g. residential, industrial) in which certain land uses are permitted or prohibited. In addition, the sizes, bulk, and placement of buildings may be regulated. The type of zone determines whether planning permission for a given development is granted. Zoning may specify a variety of outright and conditional uses of land.

Exclusionary zoning is the utilization of zoning ordinances to exclude certain types of land uses from a given community. This mechanism began gaining prominence in land-use regulations throughout the United States in the late 19th century. Ultimately, despite resistance from excluded peoples and activists, the policy is still extensively used today across the country.
